

Metal Batten Strip

Firestone Item Number: W56RAC3053

DESCRIPTION:

Metal Batten Strip is specifically designed to be used for anchoring Firestone membrane and flashing details as specified in Firestone Specifications and Details.

METHOD OF APPLICATION:

Attach batten strips to the roof substrate or penetration using the appropriate Firestone fastener. Do not overdrive or underdrive fasteners. Start at one end of the batten strip and fasten towards the other to reduce bowing between fasteners.

STORAGE:

Store in original unopened container protected from the weather.

PACKAGING:

50 – 10 ft (3.05 m) pieces per cardboard tube

PRECAUTIONARY DATA:

- Do not overdrive or underdrive fastener.
- All cut surfaces must be rounded and filed to remove burrs and sharp edges.

This sheet is meant to highlight Firestone's products and specifications and is subject to change without notice. Firestone takes responsibility for furnishing quality materials, which meet Firestone's published product specifications. Neither Firestone nor its representatives practice architecture. Firestone offers no opinion on and expressly disclaims any responsibility for the soundness of any structure. Firestone accepts no liability for structural failure or resultant damages. Consult a competent structural engineer prior to installation if the structural soundness or structural ability to properly support a planned installation is in question.
